Technical Skills

- Java(core and advance)
- HTML
- CSS
- JavaScript
- SQL(MySql, oracle)
- React.js and Node.js
- Automation Testing(Selenium, TestNg, Junit)

- Manual Testing

Projects

Project on Building e-commerce Application:

The ecommerce application I am developing is based on Java and J2EE concepts, incorporating Servlets and JSP. It is built using Java's object-oriented programming principles and follows the MVC (Model-View-Controller) architecture. This architecture ensures that the application is modular, maintainable, and easily scalable.

Internship

Internship At Express Rupaya

My role and responsibilities are

I am completed internship at Express Rupaya, where my responsibilities include building an interactive dashboard using React.js and Node.js technologies.

- In this internship I involved in project of building web application and it was based on agile methodology in this project team size will be 2 members
